Summary

Enthusiastic Front-End Developer with 1+ years of commercial experience and solid experience of latest technologies, exceptional flexibility as well as a keen desire to improve and develop new skills. Excellent attention to detail and a high level of accuracy regarding quality and presentation of work. An effective team player with great communication skills and my desire to succeed allowed me to be amongst the top achieving students to complete the year.

A fast learner who is able to adapt quickly to change with experience in a wide variety of software applications, seeking a full time job in Front End Web Development for after I graduate.

Experience

Front End Developer - University Placement

June 2016 - Present

Yell.com - Reading

- Redesigned several parts of the site which included the homepage, search page, business page, header and footer for both the Smartphone and Desktop platforms
- Updated the user journey of Free-listing and Connect scan applications for Smartphone using modern techniques
- Creation of Yell Articles (Wordpress Based) and focused on improving SEO by adding Structured Data
- Developed the Content Tool (internal tool for social profiles), where I was the Scrum Master for over a month
- Contributed towards clean, organised and readable code with relevant Unit Tests
- The company extended my contract over the summer and also offered me a position to work 1 day a week during my Final Year
- Technologies Used: HTML, ES6, SASS, JQuery, Freemarker, RequireJS, Grunt
